CATERING MENU

HELPFUL ADVICE

How Much Food Should I Order?

Only you may know how much your guests are likely to eat. We can help with the following guidelines.

Finger Food

Between meals 5 – 6 pieces

Replacement meal 10 – 12 pieces

Main Meals

Our main meals are designed to feed 10 people. The table below gives an approximate % of Recommended Daily Intake (RDI) for 1 serve

Dish Type	Serve Size	Approx % of RDI
Beef Casserole	220g	30%
Chicken Casserole	220g	20%
Lasagna	300g	24%

Salads

Our salads are designed to feed at least 10 people but, as a side dish, it is much more difficult to quantify a serve. The table below gives an approximate % of Recommended Daily Intake (RDI) for 100g

Salad Type	Serve Size	Approx % of RDI
Green	100g	2%
Greek	100g	5%
Coleslaw	100g	4%
Potato	100g	7%
Caeser	100g	9%
Pasta	100g	11%

How Much Variety Should I Order?

Be careful that you do not fall into the trap of ordering small quantities of many items. Rule of thumb is to order at least as many of each item as you have guests. This ensures it is unlikely that people will miss out on an item. You will rarely hear complaints about the variety but you will hear “they didn’t order enough of that”

Do You Cater For Special Dietary Requirements?

We cater for the most common, and you will find symbols next to items on both the hot and cold finger food menus as follows. Many of our main meals can be made gluten free on request.

V = Vegetarian, GF=Gluten Free, H=Halal

It is important that we be informed of any allergies so that we can ensure your safety.

Any other dietary preferences need separate quotation.

Do You Deliver?

Yes we deliver between 9AM and 5PM WEEKDAYS (outside of these times by arrangement)

Local Delivery (within 5Km) \$15

Other areas & times by quotation
